

Title: Failed to execute goal com.spotify:docker-maven-plugin:0.4.3:build Exception caught: HttpHostConnectException: Connect to localhost:2375
Post Body:

Deploy Spring Cloud project with docker, some code in the pom.xml:

```
<build>
    <plugins>
        <plugin>
            <groupId>org.springframework.boot</groupId>
            <artifactId>spring-boot-maven-plugin</artifactId>
        </plugin>
    </plugins>
</build>
```

when i run the command: mvn package docker:build, it throws errors:

```
[INFO] ----- [ERROR] Failed to execute goal com.spotify:docker-maven-plugin:0.4.3:build (default-cli) on project spring-cloud-gateway:
[ERROR] Failed to connect to Docker daemon at localhost:2375: HttpHostConnectException: Connect to localhost:2375
```

why will it connect to localhost:2375? Any idea, i will appreciate!

Accepted Answer: None

Highest Rated Answer:

Please update your docker-maven-plugin's version from 0.4.3 to 1.0.0

```
<build>
    <plugins>
        <plugin>
            <groupId>org.springframework.boot</groupId>
            <artifactId>spring-boot-maven-plugin</artifactId>
        </plugin>
    </plugins>
</build>
```
