

Title: Cannot resolve com.palantir.docker.compose:docker-compose-rule-junit4:0.32.0

Post Body:

Trying to drag this dependency from maven but get error, what could be the issue? Cannot resolve com.palantir.docker.compose:docker-compose-rule-junit4:0.32.0

<dependency> <groupId>com.palantir.docker.compose</groupId> <artifactId>docker-compose-rule-junit4</artifactId> <v

Accepted Answer: None

Highest Rated Answer:

The packet did not exist in maven central repo <https://repo.maven.apache.org/maven2>, so I had to add extra one.
