

Title: Docker image pull from nexus repo

Post Body:

I try to pull image from my nexus repository when i try to pull from nexus working fine, but i want remove path not working

What is solution to use 10.100.23.30:7777/ by default ?

```
docker pull 10.100.23.30:7777/test/jdk-17:snapshot-4 - work
```

```
docker pull jdk-17:snapshot-4 - not work
```
